The Breakfast Club at St. Lucy is Back!

A school Breakfast Club can have far-reaching effects on students' academic performance and overall well-being. A healthy breakfast helps provide essential nutrients that support focus, attention, participation in class and overall better performance at school.

Breakfasts programs create a positive communal environment where students can socialize with peers. This sense of community contributes to a positive school culture.

Breakfast programs can be beneficial for parents who work shifts or have busy schedules, making it challenging to prepare breakfast in the morning. Knowing that children have access to a nutritious breakfast at school can provide peace of mind for working parents.
